Your Project/idea/product name

## Problem Statement

Put your Problem statement here!

## Solution

How your product is going to solve the problem you stated in the previous section

## Product Specifications (Visuals)

Use table 1 to talk more about your product; if it is a software solution replace Size and Weight with relevant parameters.

Size	W x L x H
Weight	in lbs
Cost	Between a to b

Table 1: Table to test captions and labels

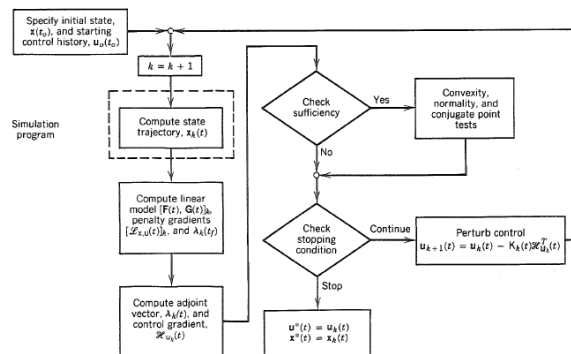

FIGURE 3.6-1 Gradient method of numerical optimization.

Figure 1: your design specs

## Conclusion (Why should you be rewarded)

Convince ABC why they should give you the grant in 1 to 2 small paragraphs
