

Quiz Section 5 – QS LaTeX exercise:

Assignment topic:

You are chosen by ABC, a nonprofit organization, which helps children in Africa get an appropriate education in science and technology using new affordable products (gadgets, sensors, equipment, software, etc.). However, in order for you to be awarded, you need to explain your idea/product in detail yet keep it within **ONE** page (including figures, tables, and all other visuals).

Your job is to replicate *LaTeX-Assignment.pdf* (generated by LaTeX) while filling out each section using the instructions provided. **Your document needs to look exactly the same as the assignment page.**

Design Model:

- 1-inch margin
- letterpaper 11pt
- LaTeX default font

LaTeX Packages you need:

- `\usepackage{fullpage}`
- `\usepackage[english]{babel}`
- `\usepackage[utf8]{inputenc}`
- `\usepackage{amsmath}`
- `\usepackage{graphicx}`
- `\usepackage[colorinlistoftodos]{todonotes}`
- `\usepackage{array}`
- `\usepackage{longtable}`

What we are looking for:

- Correct formatting
- Clear and concise responses
- Following the model precisely
- Well defined product
